CAREER OBJECTIVE

A recent Computer Science and Engineering graduate with fundamental knowledge of web technologies, Python programming, database management, and machine learning. As a fresher, I am seeking an opportunity to gain practical industry experience, apply my academic knowledge, enhance my technical skills, and contribute effectively to real-world projects.

EDUCATION

Bachelor of Science in Computer Science and Engineering (CSE) 2022 - 2026
Premier University, Chittagong

TECHNICAL SKILL

Programming Languages:	Python
Web technologies:	HTML, CSS, Tailwind-CSS, JavaScript, Laravel, PHP, Bootstrap
Database:	MySQL
Machine Learning:	Pandas, NumPy, Data Preprocessing, Classification, Regression, Model Evaluation, Computer Vision.
Tools & Platforms:	Git, Github, VS Code

PROJECTS

Bangla Handwritten Upazila-District Pair Name Recognition Using Ensemble Learning (Final Year Thesis)

Live Demo: <https://bangla-upazila-recognizer-kdbt3er8vw5zgdmzkjybu7.streamlit.app/>

- Developed a deep learning-based handwritten Bangla recognition system using Python and PyTorch.
- Applied image preprocessing techniques using OpenCV, NumPy, and Pillow.
- Implemented Weighted Soft Voting Ensemble using ViT-Base and ConvNeXt-Tiny.

BidZone – Online Bidding & Auction Management System

Live Demo: <https://online-bidding-system.alwaysdata.net/>

- Developed a full-stack online bidding system using Laravel PHP MySQL Blade and Bootstrap with separate features for Admin Seller and Bidder.
- Implemented secure authentication role-based access control auction management and safe bid processing using database transactions.
- Added automatic auction status updates and winner selection then deployed the project on Alwaysdata with Git GitHub and scheduled background tasks.

EXTRA CURRICULAR ACTIVITIES & SEMINARS

- Seminar on “Full Stack Development Roadmap a professional seminar focused on modern web development technologies and career opportunities”.
- Seminar on “Anomaly Detection in Blockchain Transactions Using Machine Learning with Explainability Analysis”.
- Volunteered at the university events, supporting coordination and assisting participants as needed.

LEARNING & DEVELOPMENT

Currently completing an AI and Machine Learning Bootcamp on Ostad platform, gaining practical experience in machine learning, data analysis, model development and real-world AI application.

LANGUAGES

- Bangla (Native)
- English (Conversational)
